S-2016-0708	Safe Sleep (SIDS Prevention)	2
S-2016-0719	SIDS Safe Sleep	4

Note: All of the above were submitted and approved through the Missouri Workshop Calendar. The purpose of this list is to help child care workers identify which safe sleep trainings meet the most recent AAP recommendations that are approved by the Department of Health and Senior Services (DHSS), Section for Child Care Regulation (SCCR). This listing is continuously updated as new safe sleep trainings that meet the most recent AAP recommendations are approved by DHSS. While a training maybe listed as meeting the safe sleep rule requirement, it does not mean the training will be offered to the public. Trainings are offered at the discretion of the trainer or training organization. Child care workers are responsible for ensuring that safe sleep training required for licensing purposes has been approved by the DHSS.

*Indicates online on-demand training.
